Professional Summary

Detail-oriented Junior SQA Engineer with hands-on experience in manual testing, test case creation, and bug reporting. Adept at ensuring software quality through rigorous functional and regression testing. Recently completed internships in QA and Web Development, bringing a strong understanding of the SDLC and web technologies. Eager to leverage analytical skills to deliver high-quality software in a collaborative team.

Internship Experience

MANUAL SQA TESTER | Barakh Tech Labs

Sep 2026 - Present

- Executed manual test cases for web and mobile apps (Daraz, Figma), identifying and documenting 15+ bugs using Google Sheets and Jira.

Web Development Intern | KodingKlouds

Feb 2026 – May 2026

- Collaborated with the development team to perform unit and integration testing on the MERN stack, ensuring code quality before deployment.

EDUCATION

BS Bioinformatics | University of Agriculture, Faisalabad

Sep 2022- June 2026
